

We develop
powder coatings

Applied
Creative Solutions

Since 1972

We create Color NEOKEM

Since **1972** we have been developing long-term relationships with our customers both in local and international markets. Together, we design added value, innovative solutions for high-end powder and industrial coatings, while remaining flexible to market challenges.

Why NEOKEM?

Consistent high quality

For over **30 years**, we produce all our powder coatings in our state-of-the-art manufacturing facilities.

Innovation

We focus our creativity, research and expertise into supporting your needs with innovative products and services.

Aesthetics and Durability

Aesthetics and durability are of primary importance for us. We follow the latest developments and cooperate with the best professionals. The result is powder coatings that combine the perfect look with high durability. Our coatings protect, aesthetically enhance and add value to your construction.

Performance

All products are designed to provide optimum performance in all applications.

Sustainable business practices are a top priority at **NEOKEM**. Our products are all environmentally friendly, free of any toxic. We are the unquestionable leaders in the Greek powder coating industry.

At the same time, we operate successfully on a global level. Our success is our people! **NEOKEM** highly values their loyalty, team-spirit, expertise, support and responsibility.

Affordability

Our advanced products meet the preferences of the market, while offering the best value for money. They are as affordable as they are outstandingly long lasting.

Certifications

Our architectural products are approved by the European Aluminium Association's **Qualicoat**, **Qualideco** and the German **GSB**.

NEOKEM offers anticorrosion powder coating systems approved by **Qualisteelcoat** and **QIB**.

Service

We are able to swiftly respond to our customers' preferences in the best possible way, through our extensive network of subsidiaries and sales partners, both in Greece and abroad.

Cooperation

We design and develop high quality powder coatings in cooperation with well-known architects and interior designers. We seek to ensure the maximum number of advantages for our partners, providing a full range of colors, as well as high-end technical and customer support.

Environment

Commitment to environmental values is our priority. We take extra care in producing environmentally friendly products. We also make sure we keep up-to-date with the latest environment-friendly developments.

Company Profile

Quality and Innovation in the Coatings Industry since 1972

Established in **1972**, **NEOKEM** started the development and production of high quality coatings that matched and even exceeded the expectations of our customers.

In **1987**, in a demanding environment for advanced high-tech products, we were the first Greek company to implement the production of powder coatings for aluminum architectural systems, industrial and other uses.

In **2006**, inspired by the market trends and motivated by our customers' particular needs, we produced super durable powder coatings with excellent resistance to adverse outdoor conditions.

Today, our business continues to grow along with our goals and expectations. We are a leading international Powder Coating manufacturer with products that are globally recognised and distributed in over 25 countries through our network of subsidiaries and sales partners.

Sales network

Our international presence and exports have always been strategic priority. During the last 20 years, we have established a dynamic international presence **in more than 25 countries**, including Germany, the Baltic States, South-Eastern Mediterranean, the Balkans and Russia.

We innovate, design, develop, produce, pack and deliver, always having in mind our long-term cooperation with our suppliers, customers and partners.

We work with the best professional representatives in each country, selecting partners who share our values and vision for the future. We emphasize the combination of our expertise with our partners' local needs, in order to offer the best solutions to our demanding network.

Powder Coatings & Main Applications

We make environmentally friendly powder coatings that reflect the current **market needs** for superior quality, appearance, utility and durability. We offer the best solutions through our extensive product ranges.

Architectural Applications

Architectural applications are probably the most challenging ones. The technical and environmental standards are constantly rising. Our collections **Prisma**, **Ammos**, **RAL Metallic** and **RAL Matt Polyester** have been designed to meet the demands and preferences of contemporary architecture.

Main Applications:

Facades, Doors, Windows, Blinds, Pergolas, Rails, Fences, Garage Doors.

See indicative applications per product

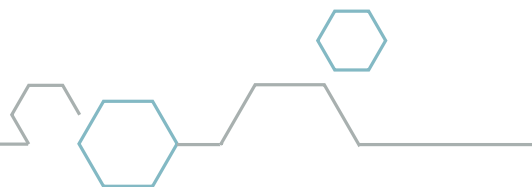

Sivota Diamond Spa Resort
Color 521 Sahara Caravan, Prisma Collection

Grande Bretagne
Color 9016/HR

Costa Navarino
Color 518 Sahara Haven, Prisma Collection

Industrial Applications

We offer a complete series of polyester, epoxy and polyester epoxy powder coatings for industrial applications.

Main Applications: Solar Panels, Lighting Equipment, Shelving Systems, Lab Equipment, Store Equipment.

Domestic Appliances

We offer a complete range of epoxy polyester powder coatings especially designed for indoor applications such as home appliances, offering the options for a distinctive look, unique design functionality and durability in classic and trendy colors.

Main Applications: Refrigerators, Dishwashers, Washing Machines, Ventilation, Ovens, Radiators, Air Conditioning.

Functional Coatings

Powder coatings on functional applications mainly offer a high abrasion, high corrosion, and high impact resistance. We have invested in the relevant technologies to achieve optimum results. We offer a product range with specialized characteristics and benefits for the user. All our products are solvent free, environmentally friendly and recyclable.

Main Applications: Valves and Fittings Accessories, Pipelines.

Anticorrosion Systems

NEOKEM's anticorrosion powder coating systems are approved by **Qualisteelcoat** and **QIB**. The two layer system provides excellent anticorrosion protection with all **Qualicoat** approved **NEOKEM** topcoats and all **NEOKEM** outdoor industrial topcoats. **Qualisteelcoat & QIB** approved systems are based on the **Anti-Corrosion Primer E20/PR** and all **NEOKEM Qualicoat** approved topcoats, ensuring the highest corrosion protection even under aggressive **C4-H** and **C5I-H** environments.

Main Applications: Transportation, Architectural Metallic Structures, Agricultural Equipment, Fences, Industrial Machinery, Electrical Panels.

NEOKEM Collections

Architectural coatings: The Prisma Collection Special Effect

The **Prisma Collection** is the most reliable and innovative solution for aluminum systems in modern architectural applications. The **Prisma Collection** of special finishes offers a complete range of high quality products, especially designed to cover the contemporary architectural needs for innovation and aesthetic results of high standards.

The **Prisma Collection** was created in close cooperation with distinguished architects, decorators and designers. By using **NEOKEM** super durable powder coatings, we protect and improve the construction aesthetics, giving utility, value and durability.

The **Mesogeios** and **Sahara** series are based on a super durable architectural polyester system, approved according to **Qualicoat, Class2**.

The **Cosmos** series is based on an architectural polyester system, approved according to **Qualicoat, Class1**.

The Ammos Collection

The **RAL** shades of **Ammos Collection** with fine texture finish, combine excellent behaviour in outdoor conditions with high mechanical properties and outstanding appearance. The color shades are at least three times more resistant than **RAL Gloss** and **RAL Matt** and are approved according to **Qualicoat, Class2**.

The RAL Metallic Collection

The **RAL Metallic Collection** includes 22 color shades and two thematic series, Pearl Effect and Grey Metallic. The collection is based on high quality, satin-gloss and matt architectural polyester systems and is approved according to **Qualicoat, Class1** and **GSB** Standard.

The RAL Matt Polyester Collection

The 44 color shades of the collection combine aesthetics with very good mechanical properties. The Matt colors are based on especially selected polyester resins with very good behaviour in outdoor conditions. The **RAL Matt Polyester Collection** is approved according to **Qualicoat, Class1** and **GSB** Standard.

Industrial coatings: The Industrial Design Collection

A wide range of polyester powder coatings offering a special effect, suitable for both interior and exterior use. The collection combines a classic feel with the latest trends in industrial design. All color shades highlight the industrial design process and add to the aesthetic value of the final product.

We create quality with respect to the environment

Focusing on customer and the environment, is a core value for us. It feeds our social and corporate responsibility drive. Our people are fully committed to upgrading environmental culture and values, adopting ecological preservation practices in their daily lives. With absolute respect for our natural environment, we produce powder coatings with optimized safety features and a clear ecological identity, without solvents, heavy metals and other toxic materials.

Ensured quality through Certifications

Our quality standards add value to our customers' projects. Our certifications confirm we implement a total quality standard and environment management system in accordance with international **EN ISO 9001** and **EN ISO 14001** standards.

Most of **NEOKEM** powder coatings series are approved according to **Qualicoat**, **Qualideco** by the European Aluminium Association, **GSB** International Organization, and the International **Qualisteelcoat**.

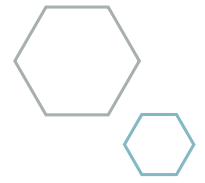

Research through development and innovation

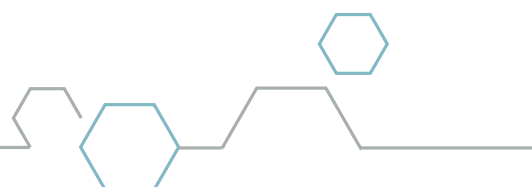

Our **Research & Development** department combines creative thinking with technological expertise. This is why we are able to turn our customers' demands for innovation and advanced technology into high quality products.

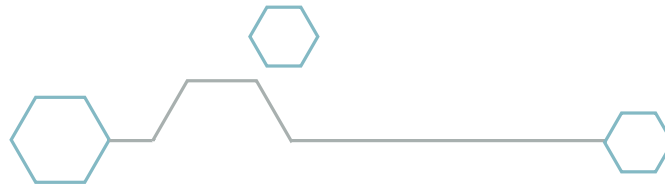

Cooperation and support

We continuously support the quality of our products at a commercial and technical level. **NEOKEM's** highly trained staff provides reliable solutions and responds with utter professionalism to your needs and provide support regarding the design, information and service of **NEOKEM** coatings.
