

AM Antibacterial Powder Coatings

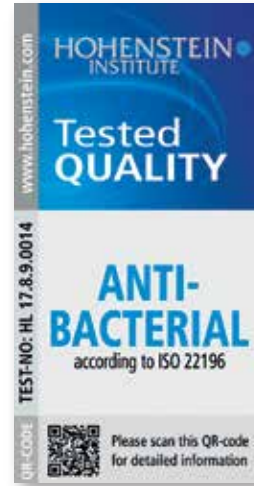

Since 1972

Description

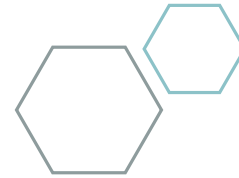

AM Antibacterial powder coating of NEOKEM, contains sophisticated, silver ion technology antibacterial additives. Its technology ensures **effective antibacterial protection** for the effective lifetime of the product, helping to keep surfaces clean and hygienic, and reduces the threat of cross-contamination.

AM Antibacterial is certified for its protection against bacteria according to **ISO 22196** by **Hohenstein Institute**, Germany.

Important Benefits

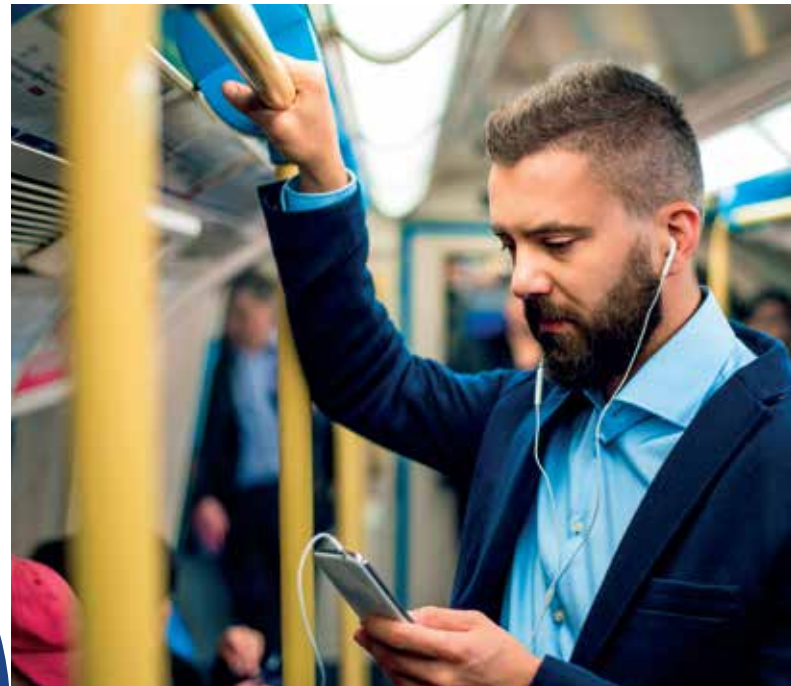

- 99.9% inhibition of bacteria growth
- Effective against antibiotic-resistant bacteria
- Surface protection over an extended period of time
- Retains its properties even after repeated washings
- Excellent color retention
- Environmentally friendly
- Not based on Nano-Silver
- Easy Application

AM Antibacterial triple action

The active ingredient of **AM Antibacterial**:

- Binds to the wall of bacteria, disrupting their growth
- Interferes with enzyme production, stopping the cell producing energy
- Interrupts the cell's DNA preventing replication

The Antibacterial properties of AM are effective for the intended lifetime of the coating.

The Antibacterial additives are built into the product, and do not wear off or leach out.

Important Notes:

✓ Available in **full range of colors**, textures and glosses

✓ **AM Antibacterial** ingredients are Tested and Compliant with:

- Biocidal Products Regulation (BPR)
- Environmental Protection Agency (EPA)

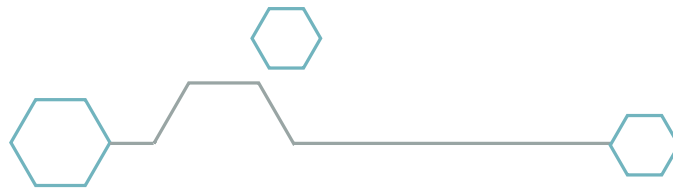

✓ It is recommended for architectural & industrial applications, where Antibacterial properties are necessary such as:

- public transit
- hospitals
- kindergartens
- schools
- public areas
- restaurants
- medical equipment
- pharmaceutical labs
- parks
- playgrounds
- fitness centers
- door handles
- air-conditioning
- ventilation systems
- bathroom fittings
- childcare facilities
- day care facilities etc.

Since 1972
